## SUMMARY

I am a Bachelor of Science in Information Technology student applying for an internship to gain hands-on experience in a professional IT environment. I aim to apply my academic knowledge, enhance my technical skills, and contribute positively to the organization while continuing to learn and grow as an IT professional.

---

## KEY COMPETENCIES

- Basic Programming
  - Basic Networking
  - Web Development
  - Hardware Computer
  - Software Computer
  - Computer Literacy
- 

## PROJECTS [websitecapstone.vercel.app](https://websitecapstone.vercel.app)

### **INTRASYS: Developing a Web, Desktop and Mobile-Based PISMS for Fibear Network Technologies Corp.**

- **INTRASYS** is a multi-platform Postpaid Internet Subscription Management System developed for Fibear Network Technologies Corp. The system is designed to automate and centralize the management of postpaid internet subscribers, improving operational efficiency and data accuracy across web, desktop, and mobile platforms.
  - The system enables authorized users to manage customer profiles, subscription plans, billing records, and payment status, while providing real-time monitoring of subscriber information. It features secure user authentication, role-based access control, and synchronized data to ensure consistency and reliability across all platforms.
  - This capstone project enhanced my skills in Front End Development in our Website. Also it helps me to gain my knowledge analyzing our multi-platform systems.
- 

## EDUCATION

**Bachelor of Science in Information Technology**  
COLEGIO DE MONTALBAN

**2022 - Present**
